Welcome

Achieving continuous improvement:

Corporate Profile

Origins

Green Mountain began in 1997 with a simple idea: “to change the way power is made”. We believed that if given a choice, consumers would choose a cleaner electricity product over conventional electricity

About Our Cleaner Electricity Products

Green Mountain Energy

Policies, organization and management systems

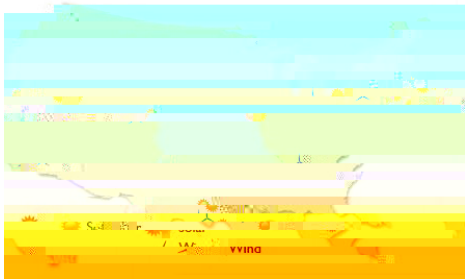

Corporate Environmental Policies

2005 Highlight: -

Environmental Performance

Land Preservation

- Since our move to Austin, TX in 2000, Green Mountain has been a supporter of the **Hill Country Conservancy** and its efforts to restore, protect and preserve the natural beauty and open spaces of the Texas Hill Country. With our native roots in the Green Mountain state, we had a natural interest when we

Water Use

Our corporate water use is limited to that drawn by our 170 or so employees in our corporate offices. Green Mountain Energy Company operates in office environments and does not engage in water intensive or manufacturing processes.

Summary

Green Mountain Energy Company has endorsed the Ceres Principles and we publicly affirm our belief that
